

Erratum

Polley, E. and Lill, A. (2020). Corella foraging ecology: are preadaptation, phenotypic plasticity and interspecific interference competition important in synurbanization?

Corella **44**: 44-54.

In the section on *Sightings and foraging flock sizes* in **Results**, the sentence

“Seventeen percent of LC foraging flocks comprised 1-5 individuals, whilst 55% contained > 40 birds: in contrast, 62% of LBILL foraging flocks comprised 1-5 birds, but only 13% contained >40 individuals” should read:

“Seventeen percent of LC foraging flocks comprised 1-5 individuals, whilst 62% contained >40 birds; in contrast, 55% of LBILL foraging flocks comprised 1-5 birds, but only 13% contained >40 individuals.”
