

SOME OBSERVATIONS ON THE TIMING OF BREEDING OF SEABIRDS ON PELSAERT ISLAND, WESTERN AUSTRALIA

CHRIS A. SURMAN

School of Biological and Environmental Sciences, Murdoch University,
Murdoch, Western Australia 6150

Received: 22 November, 1992

Pelsaert Island, Houtman Abrolhos, Western Australia, was visited between August 1991 and February 1992. Observed and estimated laying dates reveal that most laying occurs between August and November.
