

**THE BREEDING STATUS OF THE LITTLE TERN *Sterna
albifrons* ON THE NEW SOUTH WALES NORTH COAST,
1979 to 1982**

GREG P. CLANCY

56 Armidale Road, Coutts Crossing, NSW 2460

Received 14 July, 1986

The results of a three year survey of Little Tern breeding colonies are presented. Details of reproductive success, nests, clutch size, threats to breeding success and management techniques are discussed. The presence of eclipse plumaged birds is noted and briefly discussed.
