

**FURTHER FIELD OBSERVATIONS OF THE
PALM COCKATOO *Probosciger aterrimus*
IN THE CAPE YORK PENINSULA, QUEENSLAND**

G. A. WOOD

P.O. Box 122, Atherton, Qld 4883

Received 1 August, 1986; Revised 15 July, 1987

Observations of the Palm Cockatoo *Probosciger aterrimus* made between August 1983 and January 1986 in the Iron Range and Bamaga areas, Cape York Peninsula are reported. These are subsequent to those reported in an earlier communication (Wood 1984, *Corella* 8: 94-95).
